Learning Objectives for Residency Presentation Night:

1. To expose hospital pharmacists to areas of active pharmacy research within BC healthcare institutions
2. To become familiar with various statistical techniques used in the analysis of clinical research questions
3. To be able to transform a question encountered during routine pharmacy practice into a future research proposal

This program has been submitted to UBC Continuing Pharmacy Professional Development for review for Continuing Education Credits

Brought to you by the Programs Committee of the CSHP-BC Branch through your committed support of CSHP and the generous support of the following pharmaceutical manufacturers:
