

Spring Therapeutics Update

BROUGHT TO YOU BY
CSHP - BC BRANCH

PROGRAM

5:15-6:15 PM Registration, Buffet Dinner, and Manufacturer's Booths

6:15-6:30 PM Welcome from the CSHP BC Branch Executive Council

6:30-7:00 PM Movement Disorders in the Elderly: Parkinson's, Parkinsonism, and Drug-Induced Movement Disorders

Dr. Greg Egan, BScPharm, ACPR, PharmD
Clinical Pharmacy Specialist (Geriatric Medicine),
Vancouver General Hospital

Movement disorders are common among elderly patients and present a diagnostic challenge. In all cases, a specific review of the patient's pharmacotherapy is required to ensure that the pharmacotherapy for the movement disorder is safe and effective, and that there is not a drug-related cause which may explain the patient's presentation.

7:00-7:45 PM Subsequent Entry Biologics - A Primer

Dr. Dan Martinusen, BScPharm, ACPR, PharmD
Clinical Pharmacy Specialist (Nephrology),
Royal Jubilee Hospital

On February 2, 2015, the first subsequent entry biologic was administered in Canada. Pharmacists will be asked to participate in important decisions in the coming months regarding this new Health Canada designation. SEBs are not generic drugs nor are they new biologics and there is much to consider.

7:45-8:05 PM Dessert & Break

8:05-8:50 PM Double Trouble – Updated Evidence for Antiplatelet Therapy

Dr. Wendy Gordon, BScPharm, PharmD, FCSHP
Coordinator, Clinical Pharmacy Services,
Royal Columbian Hospital

Dual antiplatelet therapy is the cornerstone of acute coronary syndrome management. This presentation will review the new antiplatelet agents and highlight current clinical challenges.

Thursday
April 16th, 2015

Paetzold Auditorium

Vancouver
General
Hospital

855 West 12th Avenue
Vancouver, BC
